

// TEXTURES

# Weathered Edge

Recon's Weathered Edge texture comes in five different stacked stone patterns that blend together to create an authentic and natural stacked stone appearance. The randomness of the weathered stone wall introduces an enhanced depth of texture both within and between the individual stones.

// WEATHERED EDGE

# Specifications

- Weathered Edge has block heights ranging from 3" to 16" and widths between 9" and 48".
- The overall size of the Recon block (48" x 16" face dimension of an individual physical block unit) is preserved even though it looks like smaller units stacked.
